

Professional Data Digitization, Conversion & E-Publishing Services from Vishal

In today's information age, ease of access to data determines the effective working of your organization. The preferred way to achieve this is to publish your data in digital format.

About us

We are a successful Digital Content Solutions Company, led by a management team that has over two decades of solid Information Technology/ Content Management expertise, assisted by a core team of experts, who have been with the company since inception. Listed in the Indian Stock Exchanges, with market capitalization of USD 145 Million, VITL has the capacity to process 2 million sheets a month and an ability to quickly ramp-up capacity to maintain aggressive turnaround times, whilst maintaining very high quality standards, approaching zero defect, with consistent accuracies of 99.9% or better.

Guaranteed Cost Saving

By judiciously combining on-site and off-site resources and services, VITL, a recognized leader with a proven track record, sterling reputation and a reference account in your industry, provides unmatched value. Please ask for a free sample/pilot project to check our quality.

Our solutions include:

◆ *Data Capture and Digitization*

We provide document scanning and data capture services, covering high volume scanning of documents and microfilms, automated data and forms capture, manual keying-in from image data, and OCR to convert any form of information to electronic datafile format. We have expertise in handling microfilms in the form of film rolls, microfiche and aperture cards, and have mastered the art of black striping sensitive data from records for publication.

◆ *Data Conversion*

Our tried and tested conversion process produces the high quality and consistent data. This means you save money- just like you do with any high quality product or service. We will help you in migration of your existing data to desired formats, for example, from PDF to HTML/RTF/Word & Quark/Word/HTML to PDF. We also provide data conversion support for major formats such as SGML, XML, FrameMaker, WordPerfect, Interleaf, Xyvision, Folio and Image formats.

◆ *Publishing*

We offer world-class production support to STM, Legal, Financial and Academic book publishers, delivering consistent quality services right from data capture to conversion in XML, SGML and/or HTML and other structured formats, extending to e-Publishing through On-Line Journals, E-Books and CD-ROMs. We have capabilities in handling pagination software such as InDesign/QuarkXPress, TeX & LaTeX and manage foreign languages with predominant English alphabets. Any other foreign languages are managed as image processing projects.

◆ **Print On Demand Conversion Service**

Our Print On Demand COnversion Service brings in benefits like reduced storage needs, quick revision and quicker launch and withdrawals in tune to market response. VITL is a leader in making conventional printed books available in the form of Large Print Books, Braille and Talking Books for the visual impaired.

Data Security

We have implemented Information Security Management practices complying with the exacting standards laid out by BS7799, enhanced with the use of state-of-the-art Biometric Access Control.
